

# Oracle™ 452

## ORAL MASK

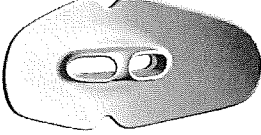

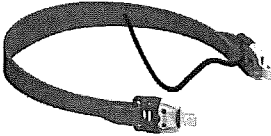

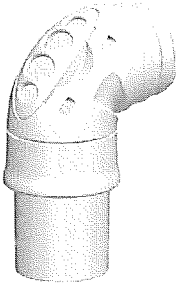

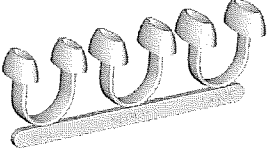

The **Oracle™ 452** delivers pressure through the mouth rather than the nose, offering the patient yet another choice of delivery. Clinically proven to function as effectively as a nasal mask, the **Oracle™ 452** is a perfect solution for mouth breathers and patients with chronic nasal obstruction who find therapy difficult with a nasal mask.

The new-generation **Oracle™ 452** has exciting refinements that improve the patient experience, for ease of use and ease of seal. A new symmetrical design means the mask is always correctly fitted, while the infinitely adjustable rotating dial allows for a personalized fit to provide greater comfort and simplicity.

The **Oracle™ 452** Interface is a new, unique oral mask for the delivery of CPAP or bi-level therapy.
